

MS in Co-occurring Disorders Recovery Counseling  
Program Improvement Activities AY22  
Therissa Libby

Note: We will be drawing from Program Review data/action plan as well.

- Revise program credit distribution to enhance student preparation and align more closely with accreditation requirements.
- Optimize the master's project curriculum for greater student and supervisor support.
  - Move to 2 cr 651 and 2 cr 660I
  - Update documentation
  - Update SDIS form
- Optimize the delivery of the practicum program:
  - Convert 681/2 to 685 (completed)
  - Update Practicum Manual
  - Update Practicum Learning Agreements (feedback from site focus group)
  - Further site development
- Collate and enhance materials gathered and evaluated by the PI team into a resource for community faculty (D2L)
  - Periodic meetings with CF
  - Mentorship for new CF
- Work with resident and community faculty to integrate Procentive Academic Electronic Medical Records into HSCD 630 and 631.
- Work with resident and community faculty to increase, where necessary, incorporation of ethics consideration (e.g., applicable portions of codes of ethics), research skills (e.g., use of the abstract form, more lit reviews) and culturally-responsive practices (e.g., increase infusion of experience of marginalized communities into course topics).
- Revise Student Handbook if/as needed
- Consider the possibility of a fully-online program (parallel? hyflex? spring?)
